

Svea checkout settings and instructions

How to install:

Install it to via composer in your magento site:

```
composer config repositories.svea_checkout vcs
git@github.com:sveawebpay/nwt-magento2-checkout.git
composer require --prefer-source 'svea/checkout:*
```

If you don't want to use composer, install it manually:

download and copy all files into app/code/Svea/Checkout/ directory

Enable it in Magento:

```
php bin/magento module:enable --clear-static-content Svea_Checkout
php bin/magento setup:upgrade
```

Settings and instructions:

These instructions and guides are for the Svea checkout module to Magento 2.

To activate it as a option follow these steps:

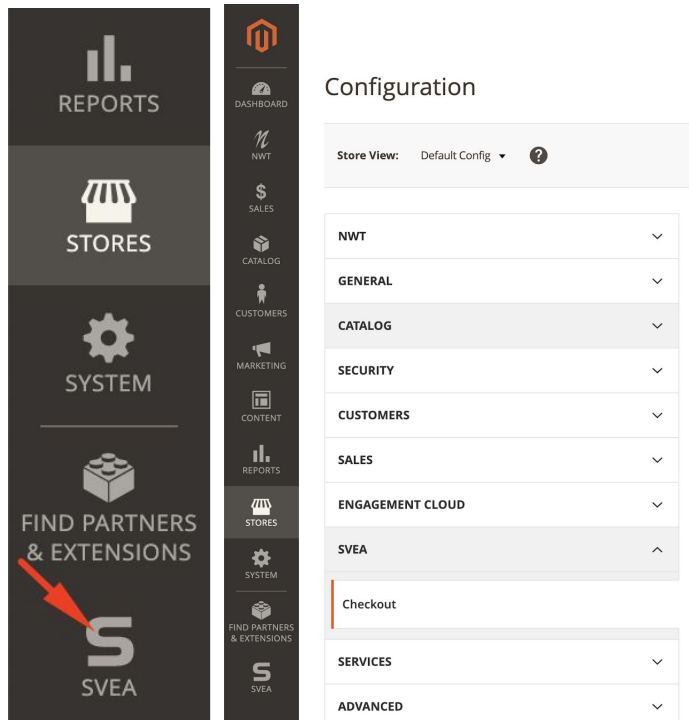

Stores->Configuration->Sales->Payment methods->Svea Checkout.

☰ Svea Checkout

Enabled <small>[website]</small>	Yes	<input checked="" type="checkbox"/> Use system value
Title <small>[store view]</small>	Svea Checkout	<input checked="" type="checkbox"/> Use system value
New Order Status <small>[website]</small>	Pending	<input checked="" type="checkbox"/> Use system value
Sort Order <small>[website]</small>		

Step 1:

To find the settings follow these steps: Store->Configuration or on the left side in the panel. Then you can find the settings under: Svea->Checkout.

Step 2:

Connection

Enabled <small>[store view]</small>	<input type="text" value="Yes"/>
Testmode <small>[store view]</small>	<input type="text" value="Yes"/>
Localhost Development <small>[store view]</small>	<input type="text" value="No"/>
<small>If you are coding in localhost, i.e Svea won't reach your site. This will make sure you can create test orders in localhost.</small>	
Merchant ID <small>[store view]</small>	<input type="text" value=""/>
<small>Merchant ID, you will get this from Svea.</small>	
Shared Secret <small>[store view]</small>	<input type="text" value=""/>
<small>The shared secret, you will get this from Svea.</small>	

Enabled: Yes/No, If you want to enable the checkout choose “Yes”, if not choose “No”

Testmode: Before you go live it's always good to test the checkout. Choose “Yes” to put the module in test mode so you can check if everything works as it should. When that is done, put the setting as “No” for live mode.

Checkout key and Secret key: Merchant identifier, needed for it to work. Svea sends this out when you get registered as a client.

Step 3:

Settings

Default Shipping Method <small>[store view]</small>	<input type="text"/>	▼
Choose a default shipping method.		
Default Country <small>[store view]</small>	<input type="text" value="Sweden"/>	▼
Only if multiple countries are allowed. If this is invalid, the first allowed country will be used		
Allowed Payment Countries <small>[website]</small>	<div><div>Denmark</div><div>Finland</div><div>Norway</div><div>Sweden</div></div>	
Assure that selected countries are in Allow Countries list (<i>System » Configuration » General » General</i>)		
Capture/Refund payment <small>[website]</small>	<input type="text" value="Yes"/>	▼
If NO, no payment operations will be done (Capture/Refund/Void) on Invoice/Creditmemo/Order		
Can capture partial <small>[website]</small>	<input type="text" value="Yes"/>	▼
If NO, you cannot make partial invoices/refunds		

Default Shipping Method: If you want a specific shipping method to be chosen directly.

Default Country: This is only important if you allow payments from multiple countries. If only 1 country is in use it will automatically choose the one from “Allowed Payment Countries”.

Allowed Payment Countries: If you allow more than 1 payment country choose which ones here.

Capture/Refund payment: If you want to enable capturing/refunding payments online. I.e when a client creates an invoice, do you want it to be charged at Svea automatically?

Can capture partial: This enables/disables the option to make partial invoices or refunds.

Settings continuation:

Subscribe Newsletter Checked by default <small>[store view]</small>	No	▼
Register Guest Customers <small>[store view]</small>	Yes	▼
Url for Terms page <small>[store view]</small>	Privacy Policy	▼
Replace checkout url with Svea Checkout <small>[store view]</small>	Yes	▼

If Yes, the "Go to Checkout" button in the minicart and cart will point to Svea checkout.

Subscribe Newsletter checked by default: When reaching checkout, this decides if the checkbox for subscription to newsletter is marked or not.

Register Guest Customers: If you want to register not logged in customers.

Url for terms page: This is where you choose what page the "Terms and agreements" link in checkout should lead to.

Replace checkout url with Svea Checkout: "Yes/No", "Yes" means that Go to checkout in minicart will lead to Svea.

Step 4:

Layout options

Display Newsletter checkbox <small>[store view]</small>	Yes	▼
Display Discount Form <small>[store view]</small>	Yes	▼
Display Comment <small>[store view]</small>	Yes	▼
Display link to a different payment method <small>[store view]</small>	Yes	▼
Display Additional block <small>[store view]</small>	Yes	▼
Additional block Content <small>[store view]</small>	<div>Show / Hide Editor</div> <div><div>Paragraph ▼ B I U [List Icons] [Link Icon] [Grid Icon] [Omega Icon] [Image Icon] [Video Icon] (X)</div><div> Lorem ipsum is placeholder text commonly used in the graphic, print, and publishing industries for previewing layouts and visual mockups.</div><div>Powered by TinyMCE</div></div>	

Display Newsletter checkbox: Simple "Yes/No", yes to display the checkbox, no to hide it.

Display Discount Form: Simple “Yes/No”, yes to display the discount form, no to hide it.

Display Comment: If you want to disable the customer comment section in the checkout choose option “No”.

Display link to a different payment method: If you have another payment option, choose “Yes” to display it.

Display Additional block: Simple “Yes/No”, yes to display the additional block above checkout, no to hide it.

Additional block Content: This is where you choose what to show in the additional block.

Step 5:

Crosssell Products

Display Crosssell Products <small>[store view]</small>	<input type="text" value="Yes"/>
Number of Products <small>[store view]</small>	<input type="text" value="8"/>

Display Crosssell Products: Simple “Yes/No”, Yes to show crosssell products.

Number of products: The amount of products shown in the slider.
